TITLE Academic Year Report, 1985-86. Washington Community Colleges.
INSTITUTION Washington State Board for Community Coll. Education, Olympia.
PUB DATE [87]
NOTE 80p.; Prepared by the Division of Information Services and Enrollment Planning.
PUB TYPE Statistical Data (110) -- Reports - Descriptive (141)

EDRS PRICE MF01/PC04 Plus Postage.
DESCRIPTORS Administrators; Capital Outlay (for Fixed Assets); College Faculty; College Role; Community Colleges; *Educational Facilities; Enrollment; *Expenditures; Federal Aid; Financial Support; Part Time Faculty; Salaries; *School Personnel; State Aid; State Colleges; State Surveys; *Student Characteristics; Two Year Colleges
IDENTIFIERS *Washington

ABSTRACT

Information on enrollments, personnel, finances and facilities in Washington's community colleges is provided in this report for the four quarters of 1985-86 and for previous years. First, general information is presented on the colleges' role, mission, and history, the organization of the state system, highlights of 1985-86, and a comparison of annualized full-time equivalent (FTE) students by funding source. Section I contains definitions related to student characteristics and FTE enrollments, and data on student headcount characteristics, student enrollment, and annualized FTE's. Section II offers information on faculty and staff, including data on annualized FTE faculty by funding source, FTE faculty and administrative personnel by employment status and assignment area, and classified employee annualized FTEs by employment status and assignment area. Section III examines facilities and capital planning for the system and each college. Finally, section IV presents an overview of community college financial operations, including costs per FTE student, sources of funding, and expenditures by program, element, and object. Appendices include information on student tuition and fees, additional historical enrollment information, and a list of statistical publications. (LAL)

INTRODUCTION

The Report

The Washington Community College **Academic Year Report** is intended to answer those questions most frequently asked about the community college system by members of the legislature, state and external agencies, citizens, and college administrators, faculty and students. The report describes the four 1985-86 academic quarters, Summer 1985; Fall 1985; Winter 1986; and Spring 1986.

The source of information for this document is the State Board for Community College Education (SBCCE) Management Information System (MIS).

The Washington Community College System

The first junior college in the state was started in 1915 in Everett when 42 students began a one-year college program on the top floor of Everett High School. It was closed in 1923 for lack of students.

Centralia College, the state's oldest existing community college, opened in 1925. It was followed by Skagit Valley College in 1926, Yakima Valley College in 1928, and Grays Harbor College in 1930. Combined enrollment was approximately 1,000. State aid was provided to the eight junior colleges by the state's first community college law in 1941.

A 1945 act brought junior colleges under the administration of local public school boards. A 1961 act designated the two-year institutions as community colleges in recognition of the growth of their vocational and adult programs. It allowed for community colleges to be operated for the first time in 20 years in counties served by four-year colleges and universities.

Separation of community college administration from that of the common schools began in 1963, when the legislature mandated that separate funding and accounting be established for community colleges. The 1965 legislature directed the Superintendent of Public Instruction to employ a firm of consultants to recommend a plan for the organization of community colleges. Acting on this plan, the 1967 legislature adopted a statute creating the state community college system and establishing it as an independent system separate from both the common schools and the four-year institutions.

Washington's Community College Act of 1967 provides for a state system of community colleges which are "for purposes of academic training, two-year institutions, and are an independent, unique and vital section of our state's higher education system, separate from both the common school system and other institutions of higher learning" (RCW 28B.50.020(5)).

INTRODUCTION
(continued)

The statute requires that the community colleges "offer an open door to every citizen, regardless of his academic background or experiences, at a cost normally within his economic means" (RCW 28B.50.020(1)). Each community college district is required to "offer thoroughly comprehensive educational, training and service programs to meet the needs of both the communities and students served by combining, with equal emphasis, high standards of excellence in academic transfer courses; realistic and practical courses in occupational education, both graded and ungraded; community services of an educational, cultural and recreational nature; and adult education" (RCW 28B.50.040(2)).

That act also created the State Board for Community College Education, composed of eight members, one from each of the state's congressional districts. The members are appointed to four-year terms by the Governor with the consent of the Senate. The State Board is empowered to appoint an executive who may employ a staff to carry out its responsibilities.

The state is divided into 23 community college districts, each governed by a board of five trustees appointed to five-year terms by the Governor with the consent of the Senate.

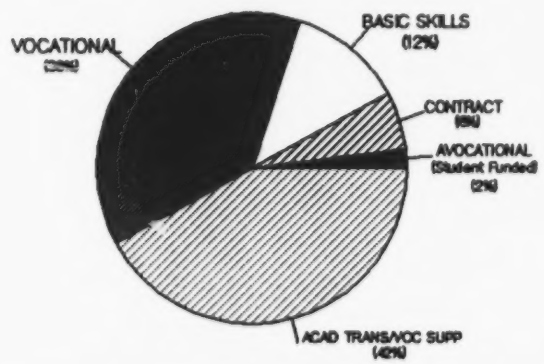
Student Enrollment Profile

Students in the system enroll in five different types of courses:

* Forty-two percent of community college courses are academic in nature. These courses fulfill freshmen and sophomore requirements for a Bachelor's degree. They also provide support for vocational education in such areas as math, English and science.

* Thirty-eight percent of the courses provide vocational education which prepares students for entry-level jobs and provides retraining and upgrading for working people. A current special emphasis is on small business assistance.

TOTAL COURSE EFFORT
1985-86



* Twelve percent of courses are classified under the heading of basic skills. These courses enable students to complete eighth grade and high school and overcome deficiencies which prevent their successfully achieving college-level studies. Basic skills courses represent the fastest growing segment of the community college system at present.

* Six percent of courses are contractual in nature and are tailored to the specific education needs of a business or organization which pays for the cost of instruction. Typically these courses are delivered at the business or organization site rather than on-campus.

* Two percent of courses are offered on a student-funded basis for avocational and personal enrichment purposes. Community choir, conversational French, and recreational sports are examples of these offerings.

HIGHLIGHTS OF 1985-86

The 1985-86 enrollment, personnel, and funding patterns were similar to those of the past three years. The following items are of particular note:

* The Washington community college system served 90,204 full-time equivalent students (FTEs), 83,555 of them in state-funded courses. FTE enrollment was .7 percent below the level of 1984-85. See the table on page vi which summarizes changes in FTE enrollment by college.

* FTE enrollment in basic skills courses continued a five-year pattern of increase. In 1985-86, 11,690 FTEs were in such courses, accounting for 13 percent of all contract and state-supported FTEs.

* System expenditures totalled $263,009,232 in 1985-86. Whatcom Community College had the smallest expenditures, $3,372,624. The Seattle District with three campuses had the largest, $38,986,960. The state and local funds expenditure per state-funded FTE was $2,932.

* The demographic characteristics of community college students reflect the adult population of the state:

  - The racial composition of the student population in Fall 1985 was very similar to the state as a whole.
  - The student population is becoming older at about the same rate as the state population.
  - The student population is more female (55 percent) than the state's adult population and is typical of community colleges nationally in this respect.

* The system had fewer part-time students in Fall 1985 (53 percent) than in 1980 (64 percent) and a lower percentage of part-time students than community colleges nationwide (68 percent). The smaller part-time enrollment indicates that the Washington community college system now serves a more traditional student population than is served by community colleges nationwide.

* In 1985-86, 8,973 full-time equivalent staff (FTE) were employed in Washington community colleges compared with 8,967 the previous year. There were 6.5 FTE classified staff (3,524) for every 10 FTE faculty and administrators (5,449).

* The community colleges had 9,135,317 square feet of facilities in 1985-86, 10,000 more than the previous year. On-campus facilities comprised 91 percent of the total space. The campuses occupy a total of 2,307 acres of land.

DEFINITIONS

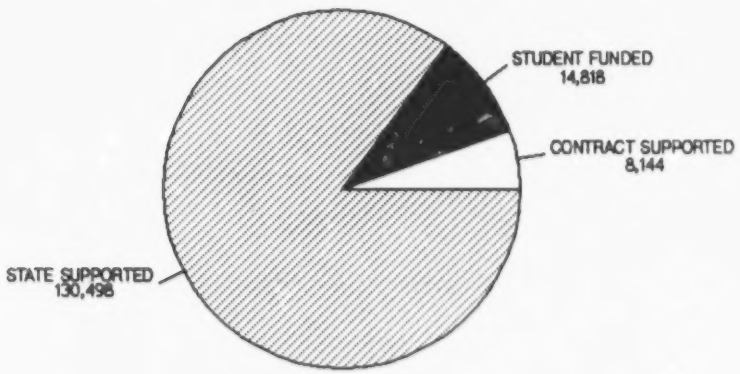
Annualized FTE: 45 credit hours.
State: Courses funded completely or in part by legislative appropriation.
Contract: Courses funded by grants and contracts from external groups.
Student: Courses funded entirely through fees charged to the students enrolled.

I

STUDENTS

INTRODUCTION & DEFINITIONS RELATED TO STUDENT CHARACTERISTICS

A total of 153,460 students were enrolled in Washington community colleges in Fall 1985. Ninety percent of these students enrolled in at least one state-supported or contract-supported course. Demographic characteristics are presented for these students only.



Key demographic variables are: age at the time of enrolling in fall quarter, race and ethnic background, and sex.

Students are also characterized as to their part-time/full-time status based on the number of credits for which they are enrolled. Those taking 10 or more credits are called full-time.

STUDENT HEADCOUNT BY QUARTER BY FUNDING SOURCE

The 1985-86 enrollments followed a quarter-to-quarter pattern which is typical of previous years. Summer quarter enrollment was one third the size of fall. Winter and spring enrollments were slightly lower than fall, with spring the lowest.

If there were an average community college in Washington, it would have served 5,600 students in fall quarter. But, the 27 community colleges are not equal in size. The largest colleges served more than 8,000 students, while the smallest served 2,000. All of the large schools are in the urban areas. Small colleges are predominantly in rural areas.

	STATE SUPPORTED	CONTRACT SUPPORTED	SUBTOTAL	STUDENT FUNDED	GRAND TOTAL
SUMMER	38,791	5,344	44,135	5,977	50,112
FALL	130,498	8,144	138,642	14,818	153,460

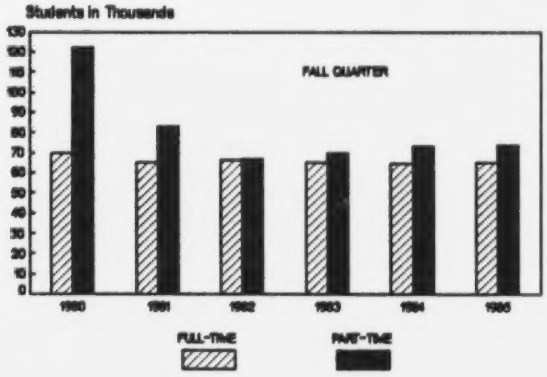
STUDENT HEADCOUNT BY FULL-TIME/PART-TIME STATUS

Fall Quarters 1980 thru 1985

A smaller percentage of part-time students is enrolled in Washington community colleges today than in 1980. The current percentage (53% part-time) is also smaller than that of the nation's community colleges in Fall 1985 (68% part-time). In a hypothetical class of 30 students, the comparison is as follows:

Washington Community Colleges, Fall 1980	19 part-time
Washington Community Colleges, Fall 1985	16 part-time
United States Community Colleges, Fall 1985	20 part-time

Budget cuts in the early 1980's forced cuts in the courses taken by part-time students. As a result, fewer working people and those with home commitments are able to participate in community colleges than in the past. Some of those courses have been reinstated since the budget cuts.



STATUS	1980	1981	1982	1983	1984	1985
PART-TIME (9.9 credits or less)	122,439	82,971	66,612	69,713	73,157	73,693

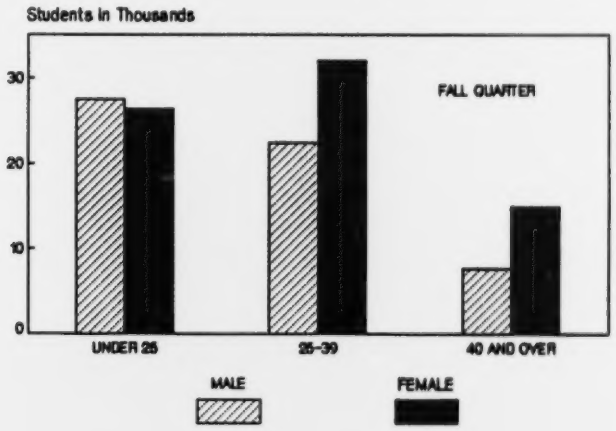
STUDENT HEADCOUNT BY AGE AND SEX

Fall Quarter 1985

During Fall of 1985, 55% of Washington community college students were female. This is typical of U.S. community colleges. There were more female than male students in all age groups, except 20-to-24-year-olds. In the 25-and-over age group, there are five female students for every three male students. In the under-25 age group, there are about as many females as males. Men and women enroll in similar course subject areas at all ages.



AGE	MALE	FEMALE	NOT REPORTED	TOTAL	% OF TOTAL
UNDER 20	10,868	11,506	58	22,432	16.18%
20-24 YEARS OLD	16,696	14,945	111	31,752	22.90%
25-29 YEARS OLD	10,088	11,800	78	21,966	15.84%
30-34 YEARS OLD	7,526	11,705	104	19,335	13.95%
35-39 YEARS OLD	4,900	8,574	84	13,558	9.78%

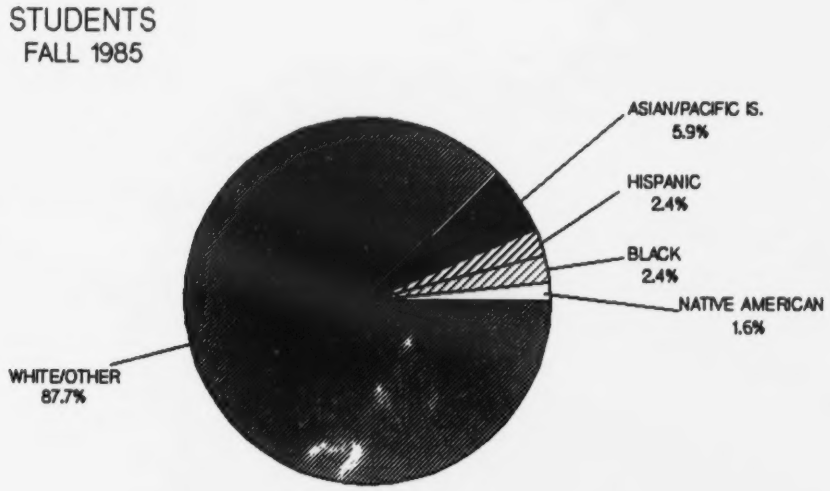
STUDENT HEADCOUNT BY RACE/ETHNIC GROUP

Fall Quarter 1985

White student enrollments declined considerably during the years of budget cuts, while enrollments in other groups held constant. By comparison, the racial and ethnic composition of the Washington state population is: White/Other 89.6%, Asian/Pacific Islander 3.2%, Hispanic 2.9%, Black 2.8%, Native American 1.5% (OFM estimates from 1984 and 1980 census data).



GROUP	1980	1981	1982	1983	1984	1985

Full-time (10 or more credits)	64,864	46.8%
Average Credit-Hour Load	9.35	

DEFINITIONS RELATED TO FTES

ANNUALIZED FULL-TIME EQUIVALENT STUDENT (FTES)

Full-time Equivalent (FTE) is a method of counting student enrollment. One annualized FTE is the equivalent of one student enrolled for 45 credit hours in a year. Since the majority of community college students enroll for less than 45 credits in a year, the number of annualized FTEs is always less than the number of students enrolled in a given quarter or year.

FUNDING SOURCE

State-Supported: Courses funded completely or in part by legislative appropriations of state funds.

Contract-Supported: Courses funded by grants and contracts with external organizations.

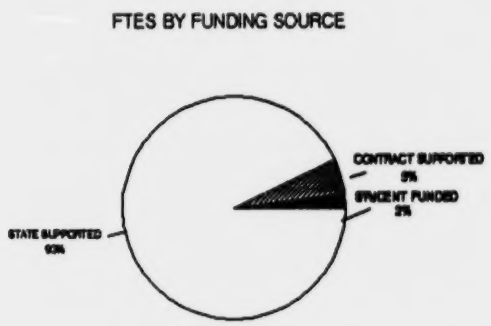
Student-Funded: Courses funded entirely through fees charged to the students enrolled in them.

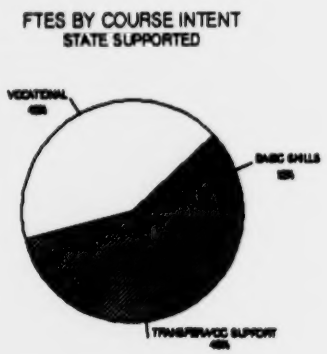
COURSE INTENT

Academic: Transfer and Vocational Support: Courses which provide the first two years of baccalaureate degree programs and which support vocational programs in such areas as math, science and English.

Vocational: Courses which prepare students for entry-level employment or provide retraining and upgrading for employed adults in a wide variety of occupations.

Basic Skills: Courses which prepare students for college-level courses, or enable them to complete eighth grade (ABE) or high school. Includes English-as-a-Second Language and adult literacy programs.





ANNUALIZED FTE-STUDENTS BY FUNDING SOURCE

Five years after the budget cuts of 1980-82, the total FTE enrollment was 85% of what it had been at the start of the decade. State-supported FTEs have been increasing slightly each year since 1982-83, consistent with small increases in state funding levels. But, it is still only 83% of the 1980 level. Contract-supported FTEs come from courses tailored to the specific education needs of a business or organization which pays the costs of instruction. Student-funded FTEs include recreational sports courses, and other courses of an avocational or personal enrichment nature.

ANNUALIZED STATE-SUPPORTED FTES BY COURSE INTENT

Among state-supported courses, the largest growth has been in the basic skills category. Basic skills courses serve those who are illiterate, those who are enrolled in the Adult Basic Education program to complete an eighth grade education, those working to obtain a high school diploma, those who need English-as-a-Second-Language training, and those whose skills are below the level of college work.

The percent of FTEs of each course type has remained fairly stable for most colleges. The exceptions were: South Puget Sound became less predominantly vocational (a change of 4% in the mix from last year to this), Tacoma became less academic and more vocational and basic skills oriented (a 7% decline in academic courses from last year), and Peninsula became more academic (an increase from 47.3% last year to 52.6% this year).

ANNUALIZED CONTRACT-SUPPORTED FTES BY COURSE INTENT

The courses offered as contract-supported generally reflect the specific needs of the contracting agency. Basic skills is one of the areas of considerable interest to correctional institutions and military bases which have contracts with community colleges. Nearly one in four contract FTEs is in the basic skills area. Eight colleges have contracts with the Department of Corrections to provide basic skills and other courses at correctional institutions. Pierce College holds the largest contract with the military.

Among the new contracts held by colleges this biennium, $619,000 comes from the Job Skills Program. The program helps to attract new industries and helps existing industries remain competitive by training and retraining workers.

ANNUALIZED STATE-SUPPORTED FTES BY TIME AND LOCATION

Day-on-campus FTEs reflect both enrollments of students who can attend full-time (the more traditional college students) and those who must tailor a part-time education to their work or homemaking schedule. These FTEs have held steady for the last three years and are expected to continue at the current level into the next biennium. Evening and off-campus course offerings were reduced most during the budget cuts in 1980-82 because they are more typically taught by part-time faculty who did not have tenure.

*Whatcom Community College does not have a central campus. Courses and services are offered at seven major centers in the county. In addition, Whatcom leases other community facilities.

ANNUALIZED STATE-SUPPORTED DAY ON-CAMPUS FTES BY COURSE INTENT

Day-on-campus offerings meet needs of more traditional students preparing to transfer or taking vocational and vocational support courses. Day-on-campus FTEs, therefore, are more academic (53%) than evening and off-campus enrollments (31%). The FTE level for day academic courses has remained stable since 1980 while the corresponding vocational FTE has steadily declined with budget cuts impacting vocational more than academic enrollments.

Day-on-campus basic skills FTEs comprise 44% of the total basic skills enrollments. The growth rate for day basic skills course is about half the rate of growth for the same courses in the evening and off-campus.

	1980-81	1981-82	1982-83	1983-84	1984-85	1985-86

ANNUALIZED STATE-SUPPORTED OFF-CAMPUS AND EVENING FTES BY COURSE INTENT

Evening and off-campus FTEs tend to be from courses taken by less traditional students, those who can only attend part-time or cannot conveniently reach a campus. The courses offered at night and off-campus were cut significantly during the budget cuts of 1980-82 and remain at only 74% of the 1980-81 level. Among evening and off-campus courses, basic skills FTEs are increasing the most rapidly.

II

PERSONNEL

DEFINITIONS RELATED TO PERSONNEL

FTE (FULL TIME EQUIVALENT) BY PERSONNEL TYPE

Faculty and Administrative Personnel: This group consists of faculty, exempt staff, and paraprofessionals:

* Faculty are instructional employees, including counselors and librarians.
* Paraprofessionals are teachers' aides, laboratory assistants, and other instructional assistants who are paid on the paraprofessional salary schedule.
* Administrators are employees exempt from the jurisdiction of the Higher Education Personnel Board civil service merit system.

One FTE in this category is equal to a full-time job assignment for nine months.

Teaching Faculty (FTE-F): A measure of teaching load. The number of FTE-Faculty represents only the teaching time of faculty or the instructional effort of classified employees working as instructors outside their regular contract. One FTE-Faculty is equal to one instructional employee assigned to teach a full-time load of courses for nine months. The effort of part-time instructional employees is added together to equal the number of FTE-Faculty. A person assigned a half-time teaching load and half-time load in a non-teaching area is counted as 0.5 FTE-Faculty.

Classified Employee: Civil service employees who work under a set of conditions determined by the Higher Education Personnel Board are classified employees. One FTE-Classified Employee is one whose services are performed on the basis of 40-hours-per-week. A part-time FTE is calculated on the basis of the average hours worked per week. An employee who works an average of 20-hours-per-week, but only for 11 months per year, is considered 0.5 of an FTE.

STATUS

Full-Time Faculty and Administrative Personnel: A person who is paid on the full-time rate schedule, regardless of the number of days worked, is a full-time faculty or administrator.

Full-Time for Classified Employees: A person whose services are required on a full-time basis (for a 40-hour-work-week) for any period from 9 to 12 months is considered full-time.

Sabbatical Leave: A person in the Faculty and Administrative Personnel category who is on professional (sabbatical) leave and receives full or partial remuneration while on leave.

Moonlight: Assignment in addition to a full-time assignment for faculty and administrative personnel (generally the teaching of evening courses by full-time day instructors).

FACULTY & ADMINISTRATIVE PERSONNEL
ANNUALIZED FTES BY EMPLOYMENT STATUS

Exempt staff FTEs in 1985-86 were 93% of the 1980-81 level, prior to the budget cuts. There has been no change in full-time FTEs as a percentage of total FTEs (62% in both 1980-81 and 1985-86). Exempt staff FTEs have held constant in the past two years consistent with the stable student FTE pattern.

ANNUALIZED TEACHING FACULTY (FTE-F) BY EMPLOYMENT STATUS
STATE-SUPPORTED COURSES

The teaching faculty in Fall 1985 was at 90% of the level prior to the budget cuts. Both full- and part-time faculty were cut in 1981-82 and 1982-83, but the largest cuts were among part-time faculty, those whose contracts could be ended most quickly. Since the cuts, part-time faculty numbers have been increasing. Part-time FTE-faculty grew by 3% from 1984-85 to 1985-86, while full-time FTE-faculty declined nearly 1%.

The part-time faculty give community colleges the flexibility to offer courses outside the expertise of full-time faculty, to offer more evening and off-campus courses, and to adjust course offerings quickly in response to student demand or changes in funding. It is typical of community colleges in Washington and nationally that part-timers represent a large proportion (about 40%) of the teaching effort.

CLASSIFIED EMPLOYEES
ANNUALIZED FTES BY EMPLOYMENT STATUS

The classified staff FTEs have remained fairly constant since 1980-81 with only a small decline during the period of budget cuts. Classified staff provide the required record-keeping, communication, maintenance and custodial functions of the colleges which decrease little with enrollment cuts. The classified FTE level is likely to remain constant, barring significant budget increases or changes in record-keeping requirements.

There were 6.5 FTEs for every 10 faculty and administrative FTEs in 1985-86.

III

FACILITIES

AND CAPITAL FUNDING

DEFINITIONS RELATED TO FACILITIES AND CAPITAL FUNDING

DESCRIPTIVE TERMS

On-Campus Facilities: Those on a primary campus or within a 10-minute walking distance.

Off-Campus Facilities: Those not on campus or within a 10-minute walking distance.

Gross Square Feet: The total enclosed floor area as measured from the outside walls.

Assignable Square Feet: The total enclosed floor area of a building including spaces used for mechanical rooms, custodial closets, circulation (stairs, corridors, etc.), public restrooms and construction space (walls, columns).

Capital Funding: Community college capital projects are financed by state general obligation bonds repaid either from student tuition or the state general fund, into which tuition revenue is deposited. Each authorized project is approved by the State Board and project funds are allocated by the Board to the specific community college district.

CATEGORIES OF CAPITAL APPROPRIATIONS

Major New Projects: Appropriations for construction of major new facilities or renovations (projects over $500,000) and for general repairs ($9,324,000), critical repairs ($6,556,000), energy conservation ($2,497,000), minor renovations ($8,940,000), minor remodeling ($2,050,000), and minor improvements ($6,007,000).

Emergency Projects: This appropriation is for unforeseen emergency repairs.

Special (SBCCE): The 1983-85 appropriation provided one year's rental of Department of Natural Resources properties used by three community colleges.

Preplanning: A one-time appropriation intended to assist colleges in developing or updating campus master development plans.

Repairs and Minor Improvements: Appropriations allocated to each community college, based on size and amount of facilities, for use in meeting minor facility emergencies, doing repairs or major maintenance, and making minor improvements.

**Total appropriation includes $623,943 for project management.

IV

FINANCIAL

DEFINITIONS RELATION TO FINANCE

GENERAL ACCOUNTING

The accounting processes of the state community college system are based on generally-accepted governmental accounting principles in accordance with the rules and regulations published by the Office of Financial Management in its Policies and Regulations Manual.

The chart of accounts for the community college system is designed to provide consistency in the coding of all funds within the system. Recording of expenditures is achieved through a hierarchical system of funds, programs, and objects.

Descriptions for the codes used within each of the three major levels are listed below:

FUNDS

001 State General Fund: Used to account for all state general funds appropriated for community college operations.

145 Local Grants and Contracts: Used to account for resources from federal, state, municipal, and private grants and contracts that are restricted to use as designated by the grantor (includes work-study funds).

148 Dedicated Local General Fund: Used to account for all dedicated local fund revenues and expenditures. Revenue sources include source 430 (dedicated revenues) and source 431 (incidental fees).

149 Local General Fund: Used to account for all general local operating revenues not legally restricted or exclusively dedicated to a specific function or project.

PROGRAMS

010 Instruction: This program consists of the formal instructional activities provided for students.

030 Public Service: This program consists of activities established primarily to provide non-instructional services beneficial to groups outside the community college.

040 Primary Support Service: This program consists of activities providing primary support to instruction. The three major elements are academic computing services, ancillary support services, and academic administration.

DEFINITIONS - Continued

050 Libraries: This program consists of activities related to the retention and display of educational materials, including library-media staff and materials needed to support the learning needs of the students.

060 Student Services: This program consists of social and cultural services and institutional management activities related directly to students, but which are not part of formal instruction.

080 Institutional Support: This program consists of activities related to the operational support for the ongoing functions of the community college, excluding physical plant operations and maintenance.

090 Plant Operation and Maintenance: This program consists of activities related to the operation and maintenance of community college facilities, including utilities, janitorial services, and plant management.

100 Sponsored Research and Programs: This program consists of all research and program activities performed in accordance with the conditions of specific grants or contracts from external agencies.

Objects	Definitions
B. Salaries & Wages	Amounts paid to employees of institutions of higher education.
C. Personal Services	Amounts paid for consulting services rendered by independent contractors.
E. Goods & Services	Amounts expended for all materials and supplies ordinarily consumed or expended within one year.
G. Travel	Amounts paid to/or for employees for lodging and/or subsistence expenses incurred while traveling on official business.
J. Equipment	Amounts paid for equipment additions and replacements which have a calculable period of service.
L. Employee Benefits	Amounts paid as employee benefits.
N. Grants	Amounts expended for grants and subsidies received from other governmental units.
S. Interagency Reimbursements	Payments received from other agencies for services or materials furnished.

DEFINITIONS - Continued

T. Transfers	The reallocation of budgeted expenditures within an agency by transfers between budgeted programs and/or capital projects.
P. Debt Service	Amounts expended for the payment of principal, interest, or other charges related to the various forms of indebtedness.
R. Capital Outlays	Amounts paid for land and building acquisitions (including construction) and related capital projects charges.

SUMMARY OF COSTS PER STATE FUNDED FTE-STUDENTS

Fiscal Years 1981 thru 1986

SOURCE: Community College Financial Management System

NOTE: Figures in Element 016 represent a faculty salary deferral cost which is a one-time retroactive earnings payment to faculty. Reported data excludes encumbrances.

* Reflects a program structure change effective July 1, 1985. 092 costs have been segregated into Building and Utilities Maintenance (092) and Custodial and Grounds (093). Administration, Safety and Refuse formerly contained in 093 is now encoded to 094.

SOURCE: Council for Postsecondary Education

NOTE: The Services & Activities Fees amounts are the maximum a college may charge.

In the state of Washington, the overall charge to students for enrollment in public institutions of higher education is made up of tuition and the services and activities fee. Tuition consists of two fees: the building fee, (called the "general fee" prior to 1985), which is dedicated to support capital construction, and the "operating fee," which goes into the state's general fund. Services and activities fees are not budgeted at the state level, but are retained locally and used for student activities and programs.

Tuition and fees are tied to the cost of instruction and increase "automatically" every two years as the cost of education increases.

Since 1977, resident Vietnam-era veterans have been exempted from tuition and fee rate increases.

APPENDIX C

List of Statistical Publications

APPENDIX C

LIST OF STATISTICAL PUBLICATIONS

The Academic Year Report, which was previously titled "Factbook," is one of two annual informational and reference publications prepared by the State Board for Community College Education. The second is the Fall Quarter Report, which is published following the conclusion of fall quarter.

The table below describes the statistical publications relating to each academic year since 1975-76:

Academic Year 1975-76	1st Publication Containing Data for this Time Period:	Date Published
Fall Quarter 1975 Data	Factbook 1977	Jan. 1977
Academic Year 1975-76 Data	Factbook 1977	
Academic Year 1976-77		
Fall Quarter 1976 Data	Factbook, Addendum A, Student Enrollment, 1976-77	Oct. 1977
Academic Year 1976-77 Data	Factbook, Addendum A, Student Enrollment, 1976-77	
Academic Year 1977-78		
Fall Quarter 1977 Data	Factbook, Addendum A, Student Enrollment, 1977-78	Sept. 1978
Academic Year 1977-78 Data	Factbook, Addendum A, Student Enrollment, 1977-78	
Academic Year 1978-79		
Fall Quarter 1978 Data	Factbook 1979	Feb. 1979
Academic Year 1978-79 Data	Factbook, Addendum A Student Enrollment, 1978-79	Jan. 1980
Academic Year 1979-80		
Fall Quarter 1979 Data	Factbook 1980	Feb. 1980
Academic Year 1979-80	Factbook, Academic Year 1979-80	June 1981

APPENDIX C

LIST OF STATISTICAL PUBLICATIONS
(Continued)

Academic Year 1980-81	1st Publication Containing Data for this Time Period:	Date Published
Fall Quarter 1980 Data	**Fall Quarter Report 1980**	Feb. 1981
